PROFESSIONAL SUMMARY

Aspiring AI-Enabled Java Full Stack Developer currently completing Java Full Stack Developer training at TOPS Technologies alongside a Bachelor of Computer Applications (BCA).

Skilled in C, C++, SQL, HTML5, CSS3, Core Java, Advanced Java, Spring Boot, REST APIs and React, with hands-on use of ChatGPT, Claude, GitHub Copilot, Cursor, Gemini, Midjourney and Antigravity.

Built practical applications including an E-Commerce Platform supporting both buyers and sellers and a Public Complaints Management System for citizen applications related to roads, drainage and other civic services.

TECHNICAL SKILLS

Languages & Frameworks: C, C++, SQL, HTML5, CSS3, Core Java, Advanced Java, Spring Boot, REST APIs, React

AI Tools & Platforms: ChatGPT, Claude, GitHub Copilot, Cursor, Gemini, Midjourney, OpenAI API, LangChain

Databases & Cloud: MySQL, MongoDB, AWS (S3, EC2 basics)

Tools & Version Control: Git, GitHub, Postman, Eclipse

PROJECTS

Project 1 | E-Commerce Platform

Tech Stack: Java, Spring Boot, REST APIs, SQL, HTML5, CSS3, React

An e-commerce platform designed to support both customers and sellers, allowing users to buy products and sellers to manage and sell products through the platform.

- ▶ *Developed user and seller functionality to support product browsing, purchasing, product management and selling workflows.*
- ▶ *Implemented the application using a full-stack architecture with Java/Spring Boot, REST APIs, SQL and modern frontend technologies.*
- ▶ **AI Integration:** *Used AI-assisted development tools for coding assistance, debugging and development productivity.*

Project 2 | Public Complaints Management System

Tech Stack: Java, Spring Boot, REST APIs, SQL, HTML5, CSS3, React

A citizen-focused complaint management system that allows citizens to submit applications and complaints for public services such as roads, drainage and other civic issues.

- ▶ *Designed a complaint submission workflow for citizens to raise applications related to civic services and infrastructure issues.*
- ▶ *Implemented backend APIs and data handling for managing citizen complaints and their status.*
- ▶ **AI Integration:** *Used AI-assisted tools during development for code assistance, debugging, documentation and workflow improvement.*

EDUCATION AND CERTIFICATION

Bachelor of Computer Applications (BCA) Hemchandracharya North Gujarat University (HNGU)

July 2023 - Present • CGPA - 7.79

Java Full Stack Web Development with AI Certification – Tops Technologies Pvt. Ltd.

May 2026 - Present • Java, Advanced Java, Spring Boot, REST APIs, React and related full-stack development

LANGUAGES

English (Professional), Hindi (Native), Gujarati (Native)
